

A close-up portrait of a young Black woman with her hair in long, thick braids. She is wearing clear-framed glasses and has metal braces on her teeth. She is smiling broadly, showing her teeth. The background is slightly blurred, showing a dental office setting with a white chair and some equipment.

# Are Braces For You?

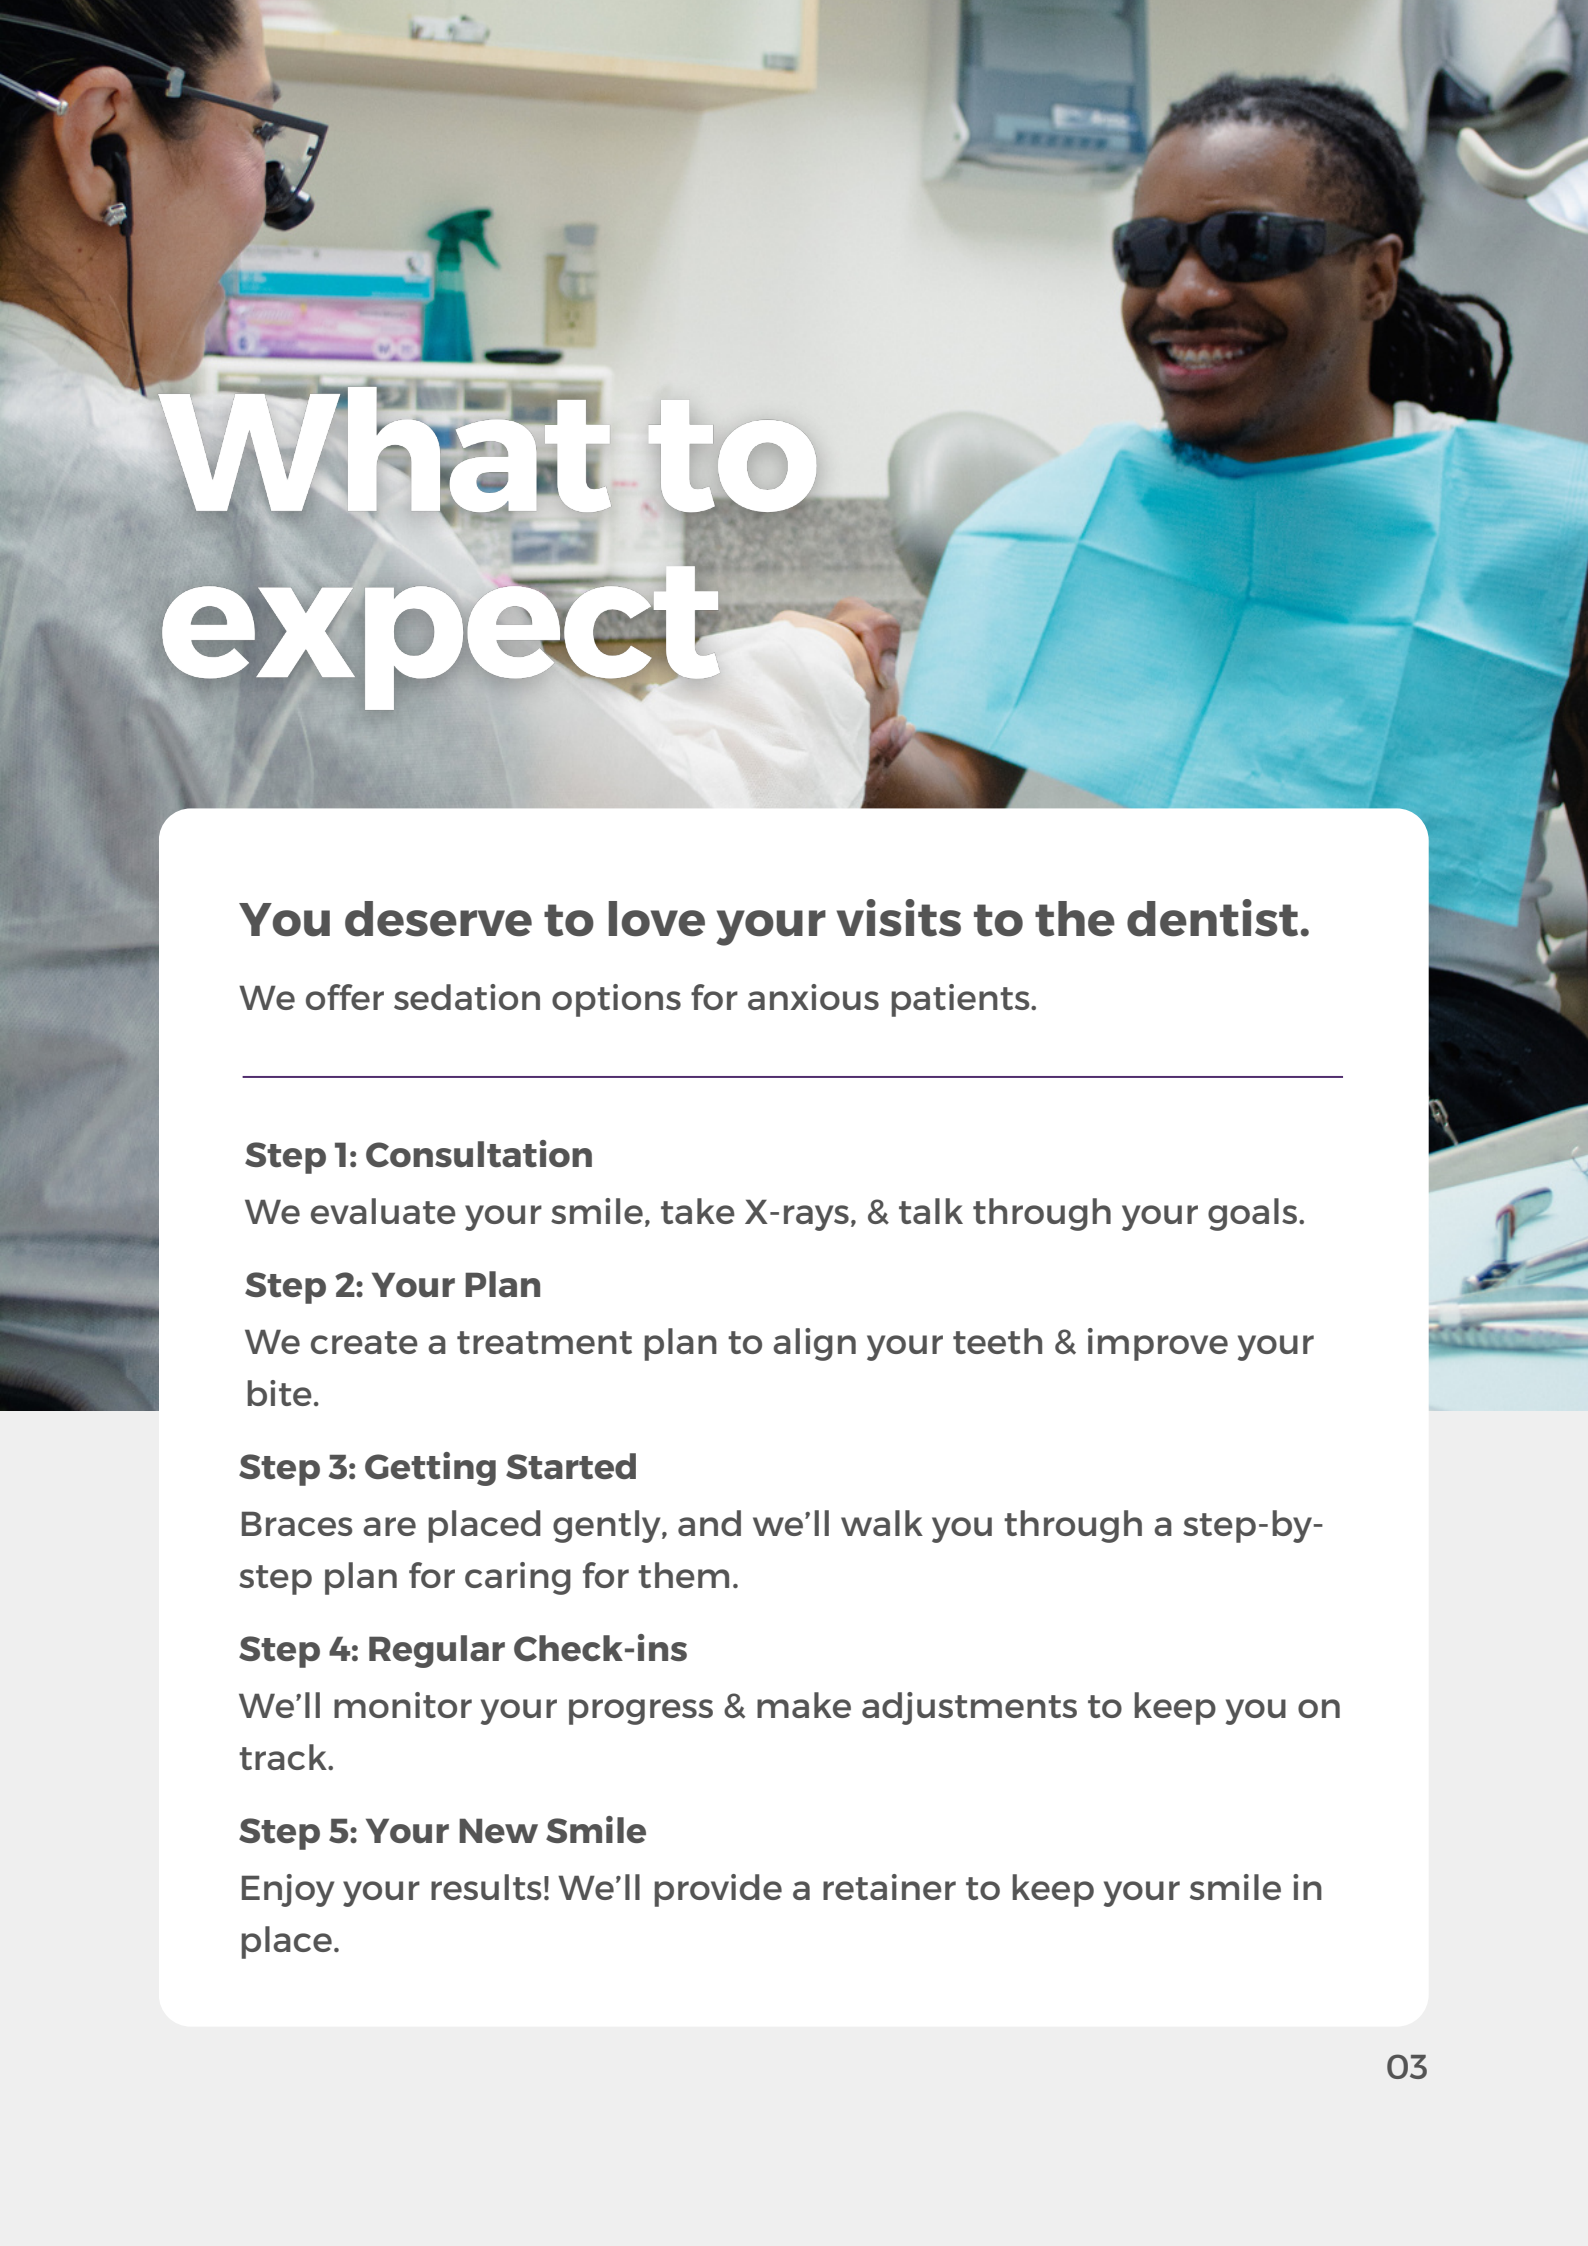

**Orthodontics isn't just about straight teeth—it's about feeling proud of your smile and improving your oral health.**

**every smile journey starts with a plan—and we'll guide you through every step.**

**We'll make the process of getting your braces simple, comfortable, and tailored just for you.**

## **Is it right for you?**

- You have gaps, crooked teeth, or an overbite that affects your confidence.
- Chewing or speaking is difficult due to bite issues.
- You missed out on braces as a kid and want to invest in your smile now.
- You're looking for a tried and true option that you can rely on.

# What to expect

**You deserve to love your visits to the dentist.**

We offer sedation options for anxious patients.

---

**Step 1: Consultation**

We evaluate your smile, take X-rays, & talk through your goals.

**Step 2: Your Plan**

We create a treatment plan to align your teeth & improve your bite.

**Step 3: Getting Started**

Braces are placed gently, and we'll walk you through a step-by-step plan for caring for them.

**Step 4: Regular Check-ins**

We'll monitor your progress & make adjustments to keep you on track.

**Step 5: Your New Smile**

Enjoy your results! We'll provide a retainer to keep your smile in place.

# Our Services

## Traditional Braces

The gold standard for correcting misalignments, bite issues, gaps, and overcrowding. Ideal for kids, teens, and adults.

---

## Clear Aligners

A nearly invisible, removable alternative to braces—perfect for adults and teens who want comfort and flexibility.

---

## Early Orthodontic Intervention

For children ages 7–9. We guide jaw development early to prevent bigger issues later on.

---

## Retainers

Custom-fit retainers that keep your smile in place after treatment—so your results last.

---

## Bite Correction

We correct overbites, underbites, and crossbites to improve comfort, function, and appearance.
