DENTISTRY

Are Implants For You?

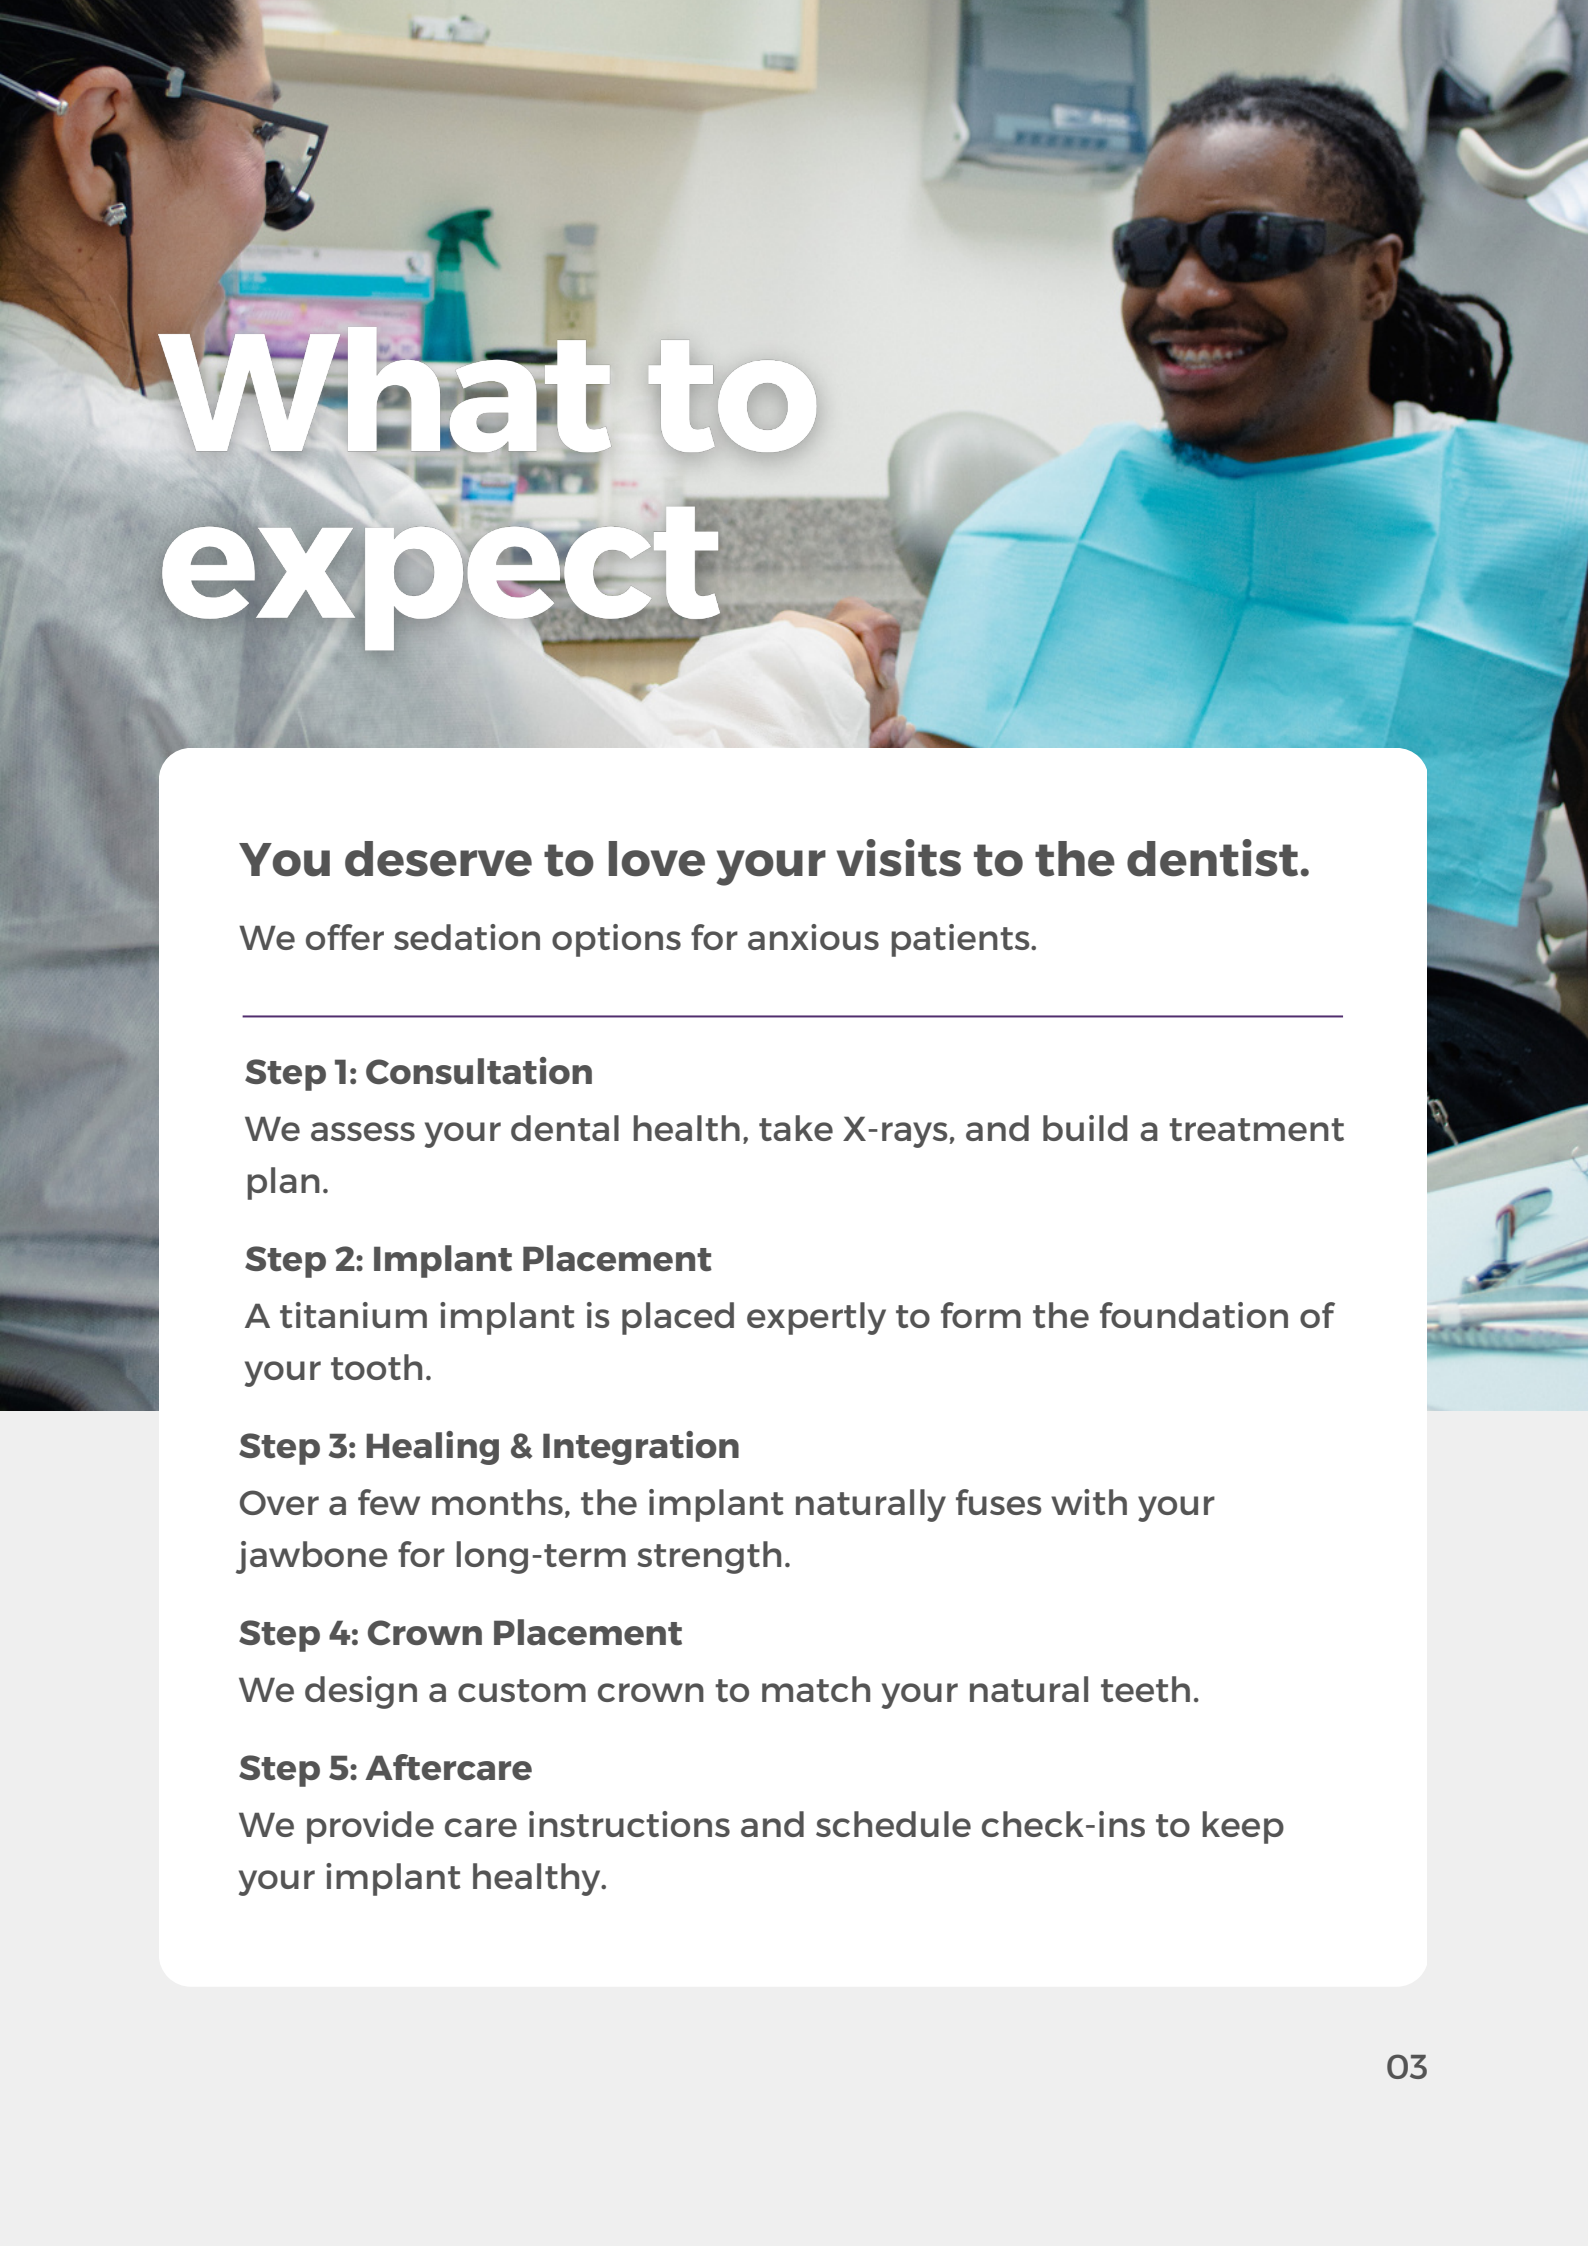

You want a natural-looking smile that feels like you.

Getting dental implants is a step-by-step process—but we'll guide you the entire way.

From your first consultation to your final crown, we make sure every phase is comfortable, clear, and tailored to you.

Is it right for you?

- You're missing one or more teeth and want a lasting solution.
- Dentures or bridges feel uncomfortable or unreliable.
- You miss enjoying your favourite foods without worry.
- You're tired of fearing your teeth might shift or fall out.
- You want to protect your jawbone and facial structure.

What to expect

You deserve to love your visits to the dentist.

We offer sedation options for anxious patients.

Step 1: Consultation

We assess your dental health, take X-rays, and build a treatment plan.

Step 2: Implant Placement

A titanium implant is placed expertly to form the foundation of your tooth.

Step 3: Healing & Integration

Over a few months, the implant naturally fuses with your jawbone for long-term strength.

Step 4: Crown Placement

We design a custom crown to match your natural teeth.

Step 5: Aftercare

We provide care instructions and schedule check-ins to keep your implant healthy.

About Dental Implants

What are Dental Implants

Dental implants are a long-term solution for replacing missing teeth. Designed to look, feel, and function just like natural teeth, they help you smile, eat, and speak with confidence again.

The Process

The process involves placing a small titanium post into your jawbone. This post acts like a new tooth root, supporting a custom-made crown that blends seamlessly with your natural smile.

The Results

A beautiful, fully restored smile that feels strong and secure—no slipping, no gaps, no worries. You'll be able to enjoy your favourite foods, speak clearly, and smile without hesitation. It's more than a tooth replacement—it's getting your freedom and confidence back.

Our Patients Love Us

I have had a lot of dental work from deep cleanings to extractions and now **implants**. I wouldn't change Dr. García and Dr. La for anything, they are the best.

My latest visit has been for an implant on a baby tooth that finally broke. Dr Garcia made the **best** effort to make it painless.

My family has had lots of dentistry done in the most **comfortable** way. I cannot recommend this dentist enough.
